

# Serverless Holiday Hackathon 2023

# Our plans for today

About Serverless Guru

Hackathon 101

Demo time!

Q & A

# About Serverless Guru

Your Guide to Serverless  
Adopt. Migrate. Build.

# Our Company

We love to take on challenges, face the unknown, and be on the forefront of serverless innovation.

Helping companies and people realize their full potential gives us energy.

Speak to a Guru today!

# Hackathon 101

Everything you need to know  
to get the most out of the challenge

## Challenge

# Full Stack Holiday-themed AI Chatbot

This Serverless Christmas Challenge is not just another Hackathon; it's a festive endeavor where you, as a participant, will develop a Full Stack Holiday-themed AI Chatbot 🤖🎄

# Event Timeline

## Announcement Webinar

Join us as we unwrap all the magical details, rules, and prizes! ✨ There will also be a live Q&A so you'll be as prepared as Santa on Christmas Eve!

Nov. 24

Dec. 01

## Hackathon Begins

The workshop is now open! Whether you're flying solo or as a trio of tech enthusiasts, it's time to start building!

## LLM Overview Webinar - Cyril Bandolo

Join us to discover everything you need to know about LLMs and a brief introduction on how to use them.  
Webinar with the one and only Cyril Bandolo - AWS HERO

Dec. 01

Dec. 08

## Let's talk Tech - Webinar

Join and be part of the discussion. In this webinar we'll go over the possible tech-stacks that we'd recommend.  
Special Guest speaker to deepdive on Langchain.

World-class AWS experts

# Event Timeline

## Demo App Deep Dive - Webinar

Struggling with the challenge? Join us while we do a deep dive into our demo application and how we developed everything.

Dec. 15

Dec. 17

## Project Submission Deadline

Make your app and check it twice! It's project submission day! (Submissions due by 11:59 pm PST)

Jan. 12

## Winners announced

Ho ho who won it all? The winners will be notified and announced!

Jan. 16

## Closing Webinar

Show and tell time! Witness the culmination of hard work, creativity, and technical prowess as the winners showcase their final projects.

# Project Submissions

## December 17, 2023

(Submissions due by 11:59 pm PST)

### Article

Don't be afraid to write a lengthier article! It's better to cover all the aspects of your project rather than leave some features outside!

# Project Submissions

## December 17, 2023

(Submissions due by 11:59 pm PST)

### Demo Video

If possible, share a demo (video format is better) of your final project. Your video should be no longer than 5 minutes

# Project Submissions

## December 17, 2023

(Submissions due by 11:59 pm PST)

### Public Repository

This facilitates fair and thorough evaluation by judges, ensuring that the submitted project aligns with the hackathon's guidelines and criteria

# Prizes

**\$1,500 USD**

**\$3,000 USD**

**\$500 USD**

# Evaluation Criteria

## BE Architecture

Evaluating the structural integrity, scalability, and efficiency of the back-end design.

## Article Completeness

Reviewing the thoroughness, clarity, and comprehensiveness of the accompanying article.

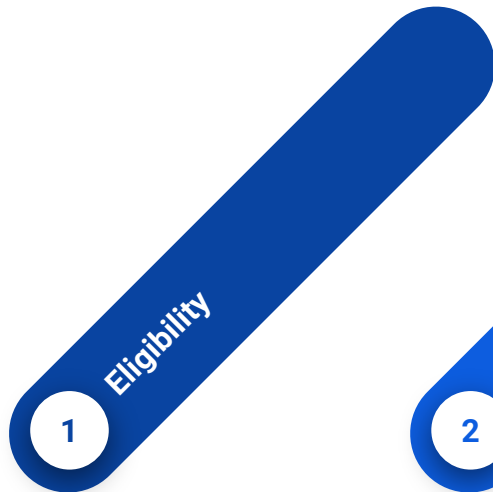

## Real-World Applicability

Assessing the practicality and usefulness of the developed project and its infrastructure in real-life scenarios.

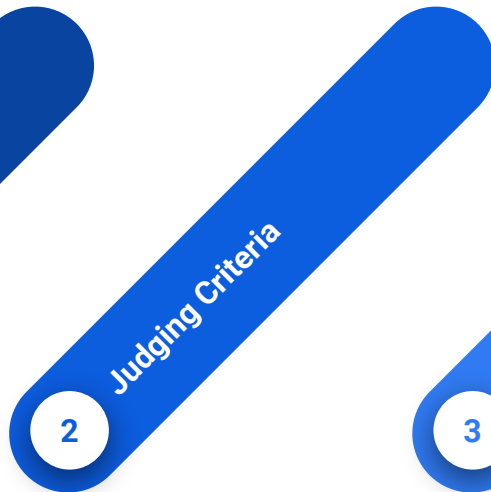

## Code Quality

Emphasis on best practices, clean and organized coding patterns, adherence to proper naming conventions, and correct lining.

# Rules

Open to all with a passion for innovation. Participation indicates acceptance of our terms.

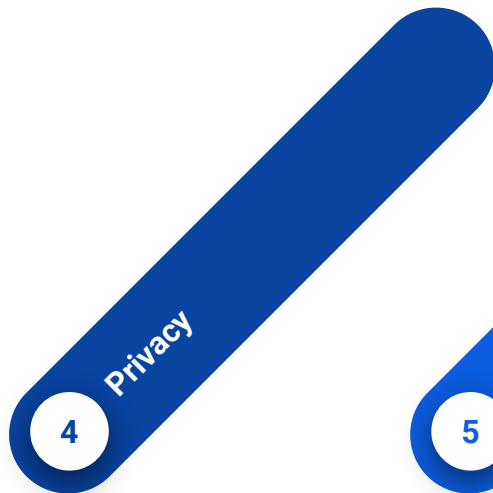

Originality (30%), Innovation (35%), Practical Implementation (35%).

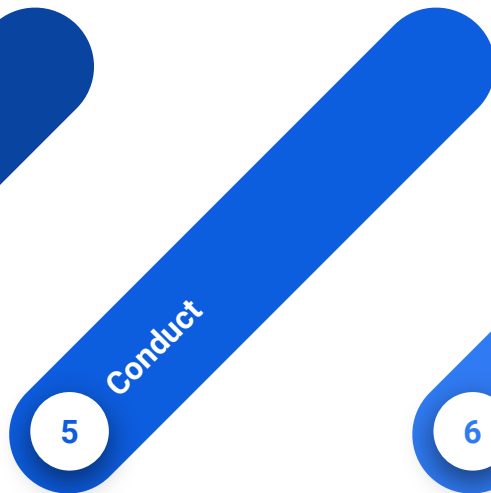

Your work, your rights. All submissions remain your intellectual property.

# Rules

We value your privacy. Personal data is used only for event-related promotion.

By entering, participants agree to indemnify the sponsor from any liability.

Adheres to all legal standards. The sponsor may modify or cancel the Hackathon if required.

# Demo Time

**Make your presentations more fun.**

Make good use of illustrations and other elements to  
compose your layout.

Time for  
Demo.

# Questions & Answers

**Make your presentations more fun.**

Make good use of illustrations and other elements to  
compose your layout.

# Thank you!
